Formtastic

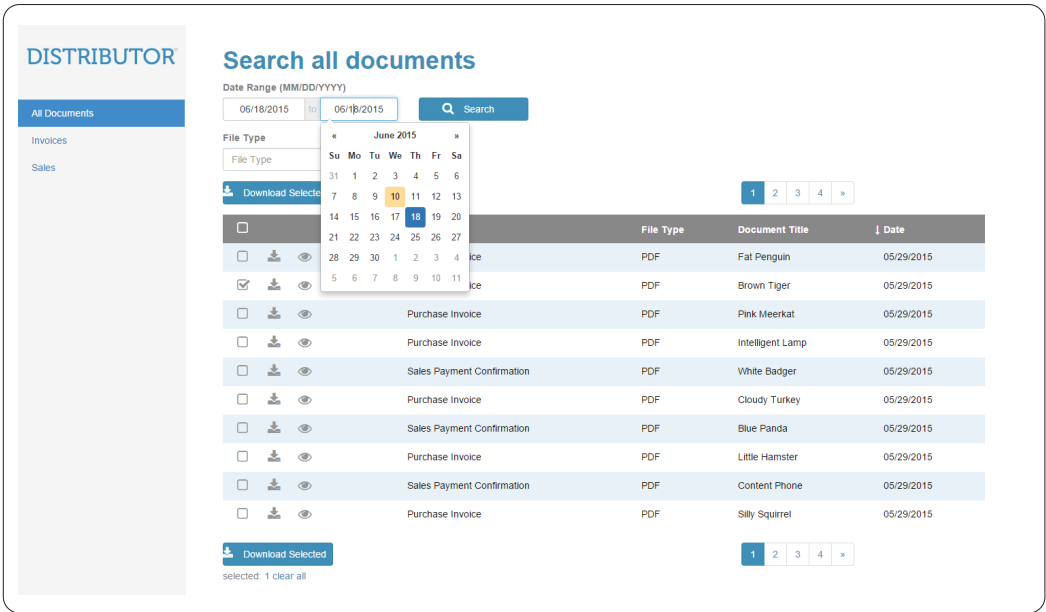

Formtastic by Fresche Solutions gives users the ability to filter by date, file type and title. Users can also select and download multiple files.

Wholesale Distributor Modernizes IBM i Documents and Makes them Web-Accessible

Document web access gives employees, partners and customers secure access to invoices, orders and other documents.

Fresche Professional Services developed a document web access solution for a wholesale distributor (name withheld for privacy) to make it easier for employees and partners to access invoices, orders and other documents. The solution uses [Formtastic](#) to transform the organization's spool files into modern looking PDFs. Users get self-serve, menu-based access from browsers on any PC at any time via a customized [Nexus](#) portal.

Datepickers make it easier to select document date ranges.

About Fresche Solutions

Fresche is the leading provider of application modernization and management solutions that enable digital transformation for companies that rely on IBM i systems.

Our professionals combine fresh thinking with technology and business expertise to help fuel transformation and growth for our clients and their customers. We do this by recycling our clients' best IT assets to take advantage of digital solutions including web, mobile, cloud and AI – reducing time to market, lowering risk and cost, and making modernization affordable to every IBM i client on the planet.

With over 300 digitally connected colleagues around the world and an extensive network of business partners, Fresche collectively brings clients the best solutions to drive innovation and IT success.
