

Virtual Enterprise FoIP (Fax) Solution

- Route, archive and manage your mission critical documents
- Consolidate physical fax servers via virtualization, including cloud
- Modernize your fax in any infrastructure and reduce costs

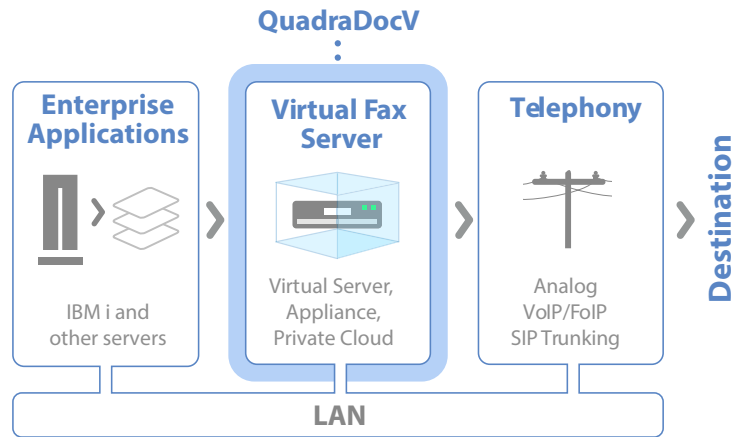

Business Challenges

Running your production fax server on outdated hardware or unsupported operating systems is time consuming to maintain and poses security, compliance and downtime risks.

The Solution: QuadraDocV

QuadraDocV is a highly flexible enterprise-level virtual fax server that integrates directly into the workflow of your document-generating applications. It enables you to automatically send, receive, route, archive and manage your faxes.

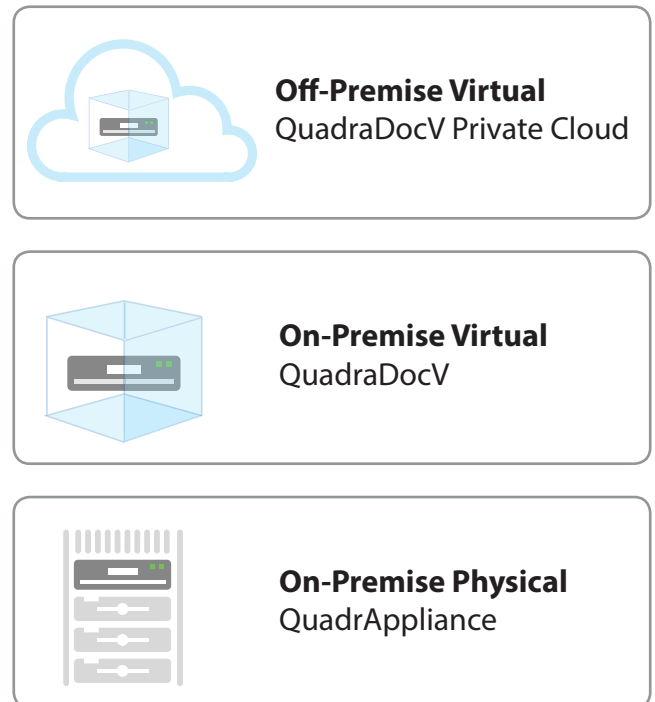

QuadraDocV eliminates the need for physical fax cards or a dedicated, physical fax server.

With QuadraDocV, you can:

- ▶ Migrate from old hardware and risky operating systems
- ▶ Centralize management, tracking and expense reporting
- ▶ Eliminate manual faxing, mailing, printing and delivery
- ▶ Ensure your fax system complies with strict data security regulations (HIPAA, PCIDSS, etc.)
- ▶ Rest assured that your fax system will work when it's needed
- ▶ Quickly scale to support your faxing volume needs
- ▶ Maintain ownership of your fax numbers
- ▶ Support any IT or telephony infrastructure
- ▶ Integrate with your ERP (e.g. SAP, Sage) and any other enterprise application
- ▶ Reduce electricity, HVAC and telephone costs
